SUMMARY

Artist and frontend developer studying Computer Science and Education at Lagos State University. I create digital portraits, ink drawings and animation, and build responsive web interfaces from design to deployment, with a strong eye for layout, colour and detail.

EDUCATION

Lagos State University, Computer Science and Education

WORK EXPERIENCE

Frontend Intern Jul 2026 – Oct 2026

Crestware Solutions

- Completed an intensive frontend development programme, building and deploying responsive websites with HTML, CSS and JavaScript.
- Turned designs into working interfaces and shipped projects to live hosting with GitHub, Vercel and Netlify.

PROJECTS

SIWES Atlas — Frontend Developer. Link Jun 2026

- A public directory connecting Nigerian tertiary students with vetted SIWES industrial training placements, built for the OPay Challenge 2026.
- Built separate student and company gateways, an interactive globe explorer, state-by-state placement cards with slots, stipends and response times, and a workspace that tracks each application.

PiNazza — Frontend Developer. Link Aug 2026

- A one-page ordering website for a Lagos pizza brand, with a menu by size, a cart with a running total and a checkout form with delivery details.

Art Portfolio — digital paintings and ink drawings. Link 2026

- Digital portraits painted in Clip Studio Paint, plus pen, marker and colour pencil drawings.

SKILLS

Art and illustration, animation, UI/UX design, frontend development (HTML, CSS, JavaScript), Python, project management, Microsoft Office Suite.

Tools: Visual Studio Code, Clip Studio Paint, Figma, GitHub.

INTERESTS

Digital art, animation, interface design, anime and storytelling.
